## Verse 1 Lyrics (one line of lyrics = one rotation through vi - IV - I - V)

Here's some truth comin' atcha in stereo, let's keep it joined in the mind and keep it clear, yo let's get off the clock and say no to what's not; let's keep it vertical, and get back into purpose to be done thru I always knew there was something going wrong, with a world of competition, clashing brains and brawn I'm done with that; let defenses go to live. Love is the space in which I forgive, now

## Prechorus Lyrics (one line of lyrics = one rotation through vi - IV - I - V)

It's time to let things flow, naturally. I'll step out the way, spirit, decide for me.  
No time to let that ego interfere, let that old ghost go! My levee's...

## (Repeat Chorus)

## Verse 2:

So let me take you on a journey. We all fly together to clear weather. There's not a cloud in the sky of the mind that knows its nature. Removing blocks to the awareness of Love. You gotta know there's nothing here stopping us. If we choose to see love, the voice for truth's guiding us. And that Teacher only sees what's real in us; the joy for us depends on following that inner guide.
